Star and Stripes Pillow

By: Debi Adams for Sizzix

Use red, white and blue fabric scraps with exposed seams to give a patriotic pillow a chenille look. A yellow star embellishment turns this pillow into an homage to the American flag. Homemade 4th of July decorations are a great way to decorate your home.

Materials:

- 655777 - Sizzix Bigz Clear Die – Star
- Batting
- Button
- Fabric
- Hot-Glue Gun
- Sewing Machine

Instructions:

Cut strips of fabric for stripes. Stitch together with seams always facing up. Attach square to side of stripes in the same manner. Cut a piece of fabric the same size as the front. Stitch three sides together with seams still facing outward. Wash and dry pillow cover to create the chenille look. Insert batting into pillow and machine stitch closed. Die-cut two Stars from fabric and one from batting. Assemble batting between two Stars and stitch around edges. Sew button into center of Star. Attach to pillow with hot glue or by sewing.

Note: A store-bought pillow can work as well. Just create Stars and attach to pillow as instructed above.

American Appliqué

By: Carol Ingram for Sulky

Add an American flag applique with frayed edges to any shirt for instant patriotism. Wear on the 4th of July or anytime. The look is quite stylish!

Materials:

- Sewing Machine and 14/90 needle
- Sulky Tear-Easy Stabilizer
- Sulky KK 2000 Temporary Spray Adhesive
- USA Flag Print Fabrics
- Sulky Holoshimmer Metallic Thread #6045 Multi-color
- Sweatshirt
- Sharp-pointed scissors
- General Sewing Supplies

Instructions:

1. Chose your favorite USA Flag Print
2. Carol chose a combination of prints that she cut apart and repositioned to applique this child's ready-made sweatshirt. Trim your print for placement, leaving a 3/4" seam allowance all around the outside edges.
3. Turn the sweatshirt inside out and place your trimmed flag print **RIGHT SIDE DOWN** on the **INSIDE** of the sweatshirt. To hold it in place spray a little KK 2000 on the right side of the print on the seam allowance areas only.
4. Using regular sewing thread on top and Sulky Invisible Thread in the bobbin, straight stitch from the back, along the design lines, i.e., around the star and down the stripes.
5. Spray KK 2000 on a sheet of Sulky Tear-Easy and place it over the back of the print on the inside of the sweatshirt. Turn the sweatshirt right side out.
6. Thread the top with Sulky Holoshimmer #6045 Multi-color, and the bobbin with Sulky 40 wt. Rayon to match the sweatshirt. Choose an appropriate decorative stitch like the starburst stitch that Carol used.
7. From the right side, stitch over all of the straight stitch lines.
8. Carefully cut away within 1/4" of the stitching, all of the top sweatshirt layer covering the Star shapes and the Sripes print. Carefully clip notches in the remaining 1/4" to create a frayed look. Wear with pride!

- Red, white and blue buttons
- White pom-pom trim
- 8" x 10" crème muslin, plus blue fabric cut in shape of a star

Steps:

3. Lay the red gingham ribbon all around the edge of the fabric piece, pressing into the tape to adhere. We folded the ribbon back and forth for a fun border effect.
4. Lay the white pom pom trim next to the red ribbon, pressing into the tape to make sure it adheres.
5. With your other piece of 8" x 10" tape, cut out a star shape the same as your blue star fabric (use copy paper as a template if needed). Remove the white backing and lay the blue fabric on the tape, printed side toward the sticky tape.
6. Lay this blue star in the center of your block, pressing into the taped piece of muslin to make it smooth and free of ripples. Remove the red liner on the star shape.
7. Lay the red, white and blue 1/4" ribbon all around the edge of the blue star.
8. Lay red, white and blue buttons on the blue star.
9. Lay the silver Tapestry braid in swirls or curls or wavy lines all around the buttons in the blue star area. Press the thread into the tape to make sure it adheres.
10. Lay the navy Tapestry Braid in swirls all around the remaining areas of the muslin, as shown in our photograph.
11. When thread decorating is complete, lay the design in a shallow pan or tray and cover all remaining areas with Diamond Beadlets.

Patriotic Star Pinwheel

By: Sheila of Cheeky Magpie

- Adhesive
- 2 buttons
- 3" thin wire
- Large plastic bead
- Stick

the blades of the star. Punch or cut a small hole in the center of the star. Place adhesive around the center hole. Loop the blades into the center and stick down.

Step 2:

Poke hole in middle of paper circle and use adhesive to apply it to center of star. This helps to hold all of the blades in place.

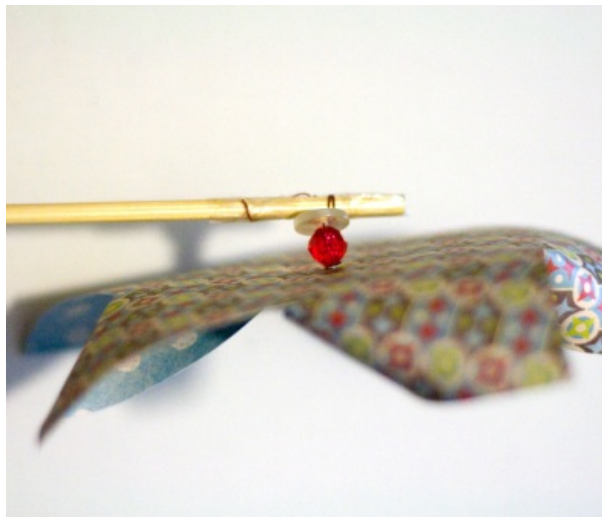

Step 3:

Thread wire through button and then place on top of hole in center of the star. The wire will be what allows the star to spin.

Step 4:

On the back of the star, thread the bead on the wire and then add the second button. The bead keeps a space between the stick and the star allowing it to move freely. Twist wire to keep button/bead in place. Then wrap wire around the stick and tape down ends.

At this point, you are done but may want to decorate with ribbon or trim and a shape for the center of the star. I used a small chipboard star for mine. It's not only a toy, but doubles as decor. Mine is being stored in a planter next to some flowers. It spins gently with the breeze. Very nice!

Grand Old Flag

By: Becca Rowberry

Whenever the July 4th holiday comes around, the words to this song always comes to my mind.

You're a Grand Old Flag by George M. Cohan

You're a grand old flag,
You're a high flying flag
And forever in peace may you wave.
You're the emblem of
The land I love.
The home of the free and the brave.
Ev'ry heart beats true
'neath the Red, White and Blue,
Where there's never a boast or brag.
Should auld acquaintance be forgot,
Keep your eye on the grand old flag.

So with that in mind I decided to make myself a Grand Old Flag to display in my home. And not just for the holidays but always.

Instructions:

Take your foam and cut it to the desired size that you want. For mine, I wanted 7 red stripes and 6 white stripes.....just like our flag. Measure out how wide each stripe needs to be to make sure they are even. I cut my foam to be 12" X 10".

Cut your fabric into 2" x 2" squares. You'll need less of the blue and more of the red and white fabric (the amount depends on how close you put the squares together, I had plenty with 5/8 of a yard of each)

Next, I placed my foam on a towel to help keep it from slipping.

Now it's time to glue the fabric to the foam. Wrap the fabric around the tip of your pencil, dip it in the glue and then stab it into the foam. Don't go too deep but enough that it will stick in place.

Continue doing that until the whole flag is complete.

To finish off the sides of the flag I decided to wrap ribbon around it. I glued it in place as I wrapped around it.

There you have it, a grand old flag that is happy and ready to be put on display!!

4th of July Crafts for Kids

Firecracker Craft for Kids

By: Marie LeBaron of Make and Takes

Just in time for the 4th, guest crafter Marie LeBaron of [Make and Takes](#) brings us a great kids' craft. If your kids can't wait until the 4th to light up a few fireworks, then this Firecracker Craft is the perfect way to celebrate early. Bubble wrap is placed inside, making a great popping noise maker. This is a fun and easy 4th of July craft the kids will go bonkers for.

Materials:

- Bubble wrap - hopefully you have some left over from a package that came to your house.
- Toilet paper roll - start saving a few of these as they always come in handy for crafting projects.
- Pipe cleaners - these are also great to have handy.
- Decorations - paint, markers, paper, stickers, tissue paper, etc...
- Scissors, Glue/Tape/Stapler

Steps:

1. First tape both ends of the pipe cleaner to each end of the Firecracker. You could staple the pipe cleaner in place as well. Then twist your pipe cleaner together for more of a fuse look.

2. Then roll up a 2x3 inch size of bubble wrap. Using a little glue or tape, stick it into your empty toilet paper roll. I just taped mine on the top and the bottom. The tape is going to get covered with your decorations anyway.

3. For the decorations, you can paint them with red, white, and blue paint. Or glue on paper. Or use markers to make a flag or stars. We even cut a little orange tissue paper and simply stuck them to the tops of the fuse to make it look like it was ready to blow!

Now the kids are ready to set off their firecrackers. Have them put their fingers or thumbs into the tube and pop the bubble wrap. When the bubble wrap is popped, it sounds like fireworks are going off in your house. Have fun and enjoy firecrackers a little early this year.

Patriotic American Flag Pin

by Cindy Mintz

This patriotic American flag project is the perfect craft for kids and adults. It's easy, inexpensive, and a great way to show off your national pride. You and the kids can do it together and have the opportunity to discuss national events or simply enjoy each other's company.

Materials

- 1 large safety pin (1-1/2 inches)
- 13 standard-size safety pins (1 inch)
- Red (44), white (38), and blue (35) beads

Directions

Assemble seven standard-size safety pins by sliding five blue beads and then a white bead, then a red, then white, then red onto the open pin. Be careful not to stick yourself. Assemble six standard-size pins by sliding beads on in this order: red, white, red, white, red, white, red, white, red for a total of nine beads on each of the six pins. You'll begin and end with red. Assemble the final pin by sliding the red, white, and blue pins onto the large safety pin. Then slide on the remaining six red and white pins. To ensure that your beaded pins will not fall off of the big pin, spring the hinge on the big pin and slide the beaded pins around and place them on the other side of the hinge. It's almost like sliding a key onto a key chain. Wear your American flag pin proudly.

Delicious Corn on the Cob

Description

Delicious Corn on the cob is one of my favorite summertime foods. That buttery yellow corn just screams my name.

Ingredients

- 6-8 large ears of corn, shucked and de-silked
- ~1/2 cup butter or margarine, melted
- salt and pepper
- aluminum foil

Instructions

1. Clean the corn ears.
2. Melt the butter.
3. Using a basting brush, slather each ear liberally with butter. After a moment, the butter should harden somewhat into a tacky coating.
4. Sprinkle lightly with salt and heavily with fresh-ground peppercorns (I use green, white, and black).
5. Tightly roll up each ear in a piece of aluminum foil such that two layers of foil cover the ear's surface.
6. Twist or fold over the foil at the ends. I usually do this in batches of three ears, or the kitchen counter becomes rather messy.

Cook Time:

-Cook them on the grill for 8-10 minutes, then turn them over and cook another 8-10 minutes.

Find thousands of free crafts, decorating ideas, handmade gifts and more at www.FaveCrafts.com. Find thousands of free recipes, cooking tips, entertaining ideas and more at www.recipelion.com.

-On a charcoal grill, I lay them directly on the prepared coals (red inside, completely covered with grey ash).

-On a propane gas grill, I turn it to medium-hot heat and lay the ears on a low rack. The perfect ear will be well-roasted, with the tops of kernels brown or just blackening.

-Be careful opening the foil -- that butter is hot! I typically serve them with fresh bratwurst boiled in beer before being grilled.
