**Sparkling New Years Card**  
by Margie Higuchi

Putting together a New Year's card is easy with the **E-Z Runner® Grand Permanent Strips Refillable Dispenser**. You can dispense Permanent Strips in long lines, curves, and even as individual strips with this lightweight and versatile dispenser. It's easy and economical to refill, with four options for drop in refill cartridges.

## Supply List

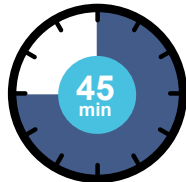

**Scrapbook Adhesives by 3L®: E-Z Runner® Grand Permanent Strips Refillable Dispenser, 3D Foam Holiday Embellishment Kit**

**Cardstock:** Shimmery Navy, Silver Mirror White Vellum

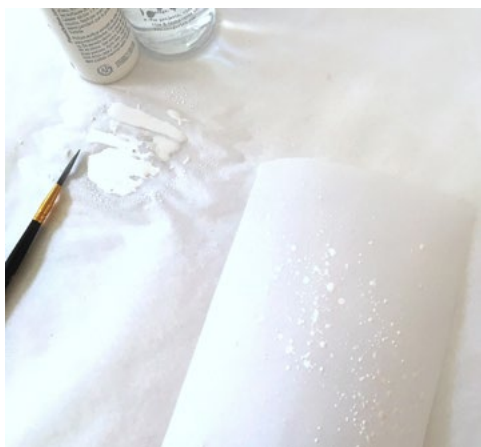

**Paints:** White Paint

**Other:** Water Mister, Paint Brush, Computer Font or Stamp

**Creative Time:** 45 minutes

1. Fold a piece of 8 ½ x 5 ½-inch shimmery navy cardstock in half to make a vertical 4 ¼ x 5 ½-inch card base. Set aside.
2. Cut one 4 x 5¼-inch with white vellum.
3. On a scrap piece of wax paper, squeeze a drop of white acrylic paint and add water with a water mister for a watery consistency. Dip a medium fine tip paint brush into the mixture and tap the brush with your other hand to make paint splatters on your vellum card panel in a diagonal line from corner to corner. Set aside to dry.

4. Die-cut a 3 ¼-inch wide star from silver mirror cardstock. On its back, apply strips of **E-Z Runner® Grand Permanent Strips Refillable** adhesive and place on the vellum card panel.

***Designer's Tip:** The **E-Z Runner® Grand Permanent Strips Refillable Dispenser** is easy to use on my projects. No more switching between multiple adhesives. I can dispense adhesive strips long or short in tight areas like the star die cuts.*

5. Place the silver star die cut on the vellum card panel.

6. From the **3D Foam Holiday Embellishment Kit**, use **3D Foam Stars** and silver and blue craft foils. Randomly place the small 3D Foam Star shapes onto the vellum card panel, keep the top liner on for easy handling.

7. Remove the top liner on one of the **3D Foam Stars**, place the blue craft foil (colored side UP) onto the exposed adhesive, and gently rub with finger to transfer the foil color to the star.

8. Slowly remove the foil for a beautiful sparkly star!

9. Repeat the process for the other stars using your choice of blue or silver craft foils.
10. Print or stamp "Happy New Year" sentiment onto with white cardstock. Cut into a 3 7/8 x 5/8-inch banner strip.

11. Die-cut a 1½-inch wide star with shimmery navy cardstock. Apply **E-Z Runner® Grand Permanent Strips Refillable** adhesive behind each piece and place on card panel. *Note: See how I applied the adhesive strips individually as needed, on the navy star die cut.*

12. Apply **E-Z Runner® Grand Permanent Strips** adhesive behind each element on the vellum card panel and center onto the card base to finish.

**Dies:** Spellbinders Classic Circles SM, Classic Circles LG, Classic Hearts, 6 x 6 Matting Basics

**Ink:** Ranger Ink Distress Ink Walnut Stain

**Cardstock:** White, Black, Peach, Grey, Kraft, Red

**Creative Time:** 30 minutes

1. Cut multiple circles with dies from kraft cardstock.

2. Select the largest circle die and use it to cut and create a moon shape and oval. This will be the owl's body and wing.

3. Ink the edges of the **Creative Photo Corners Kraft**.

4. Starting at the bottom of the moon shape, apply **Creative Photo Corners Kraft**, building the design upwards.

5. Continue to work up the left-hand side of the moon shape and trim the **Creative Photo Corners Kraft** at the curved edge if necessary. Cut a second oval to use as the other wing. Ink the edges of the ovals.

6. Attach one wing to the right-hand side with **3D Foam Squares White Regular Size**.

7. Attach the second wing behind the body with **3D Foam Squares White Regular Size**.

8. Create the owl's head similarly by cutting a section out of a circle. Cut more circles from black, peach, grey, and white cardstock to create the eyes. Cut peach cardstock with a leaf shape for the nose and a heart shape for the feet. Adhere these using the **E-Z Runner® Grand Refillable Dispenser**.

**St. Patrick Button Shamrock Card**  
by Margie Higuchi

Adding dimension with buttons makes an unexpected and whimsical St. Patrick's Day card. It's easy to adhere small shapes with **Adhesive Dots**!

## Supply List

**Scrapbook Adhesives by 3L®: Adhesive Dots Small, Crafty Power Tape**

**Cardstock:** White, Green, Bright Green

**Buttons:** Green, White

**Other:** Computer Font or stamp

**Creative Time:** 30 minutes

1. Fold a piece of 4 ¼ x 11-inch green cardstock in half to make a vertical 4 ¼ x 5 ½-inch card base.
2. Cut two card panels: 4 x 5 ⅛-inch from bright green cardstock and 3 ¾ x 5 -inch with light green cardstock.
3. Die-cut or cut a 3 ½ x 2 ¾-inch shamrock shape from green cardstock (the same as card base). This will be the guide for your focal button element of the card.

4. Feed **Adhesive Dots Small** from the dispensing box one by one. Place an Adhesive Dot with its liner on the back of each button. Press the Adhesive Dot, with the liner still on it, into the button. Remove the clear liner and adhere your button to the shamrock die cut.

**Designer's Tip:** There are nine different sizes and types of **Adhesive Dots**. I'm using **Adhesive Dots Small** because most of my buttons were close to this size. Choose the size that works for you. From **Adhesive Dots 3D** to **Adhesive Lines**, keep them handy for all your projects.

5. Work your way around the shamrock shape, using different button sizes and colors to cover the shape.

6. Layer the two card panels from Step 2 and adhere them with **Crafty Power Tape**. Using the same adhesive, center the layered card panel on to the card base.

7. Adhere the button shamrock shape to the card front with **Crafty Power Tape**.

8. Print or stamp "Happy St. Patrick's Day" and a shamrock image onto white cardstock. Trim the sentiment strip, adhere onto bright green cardstock cut to 3 5/8 x 1-inch, with **Adhesive Dots Small** on the back on each end.
9. Center a small green button on the shamrock image of sentiment with an **Adhesive Dot Small** to finish.
