Materials

- Terra Cotta Pot
- Easy Chalkboard Marker
- Bistro Chalk Markers, a variety of colors
- Acrylic Paint, white
- Foam Paint Brush
- Plain White Chalk
- Paper Towels

Instructions

- 1 Use the Easy Chalkboard Marker to paint the bottom half of the pot.
- 2 Paint the top ring around the pot with the white acrylic paint. Allow to dry.
- 3 Take the plain white chalk and color all over the black chalkboard paint.
- 4 Wipe off the chalk with the paper towel. Do not use water.*
- 5 Using the Bistro Chalk Markers, draw a design all over the bottom half of the pot. This could be a repeated pattern or even words.

Metallic Leaf Impression Art

by Jennifer Rizzo

Materials

- Americana Decor® Texture™ 8oz, Rose Gold
- Large, non-toxic leaf (Hosta leaf), or a plastic leaf (faux Monstera leaf)
- Small palette knife
- Workspace covering
- Glass floating frame

Instructions

- 1** Gently stir the texture paint. Choose a large non-toxic leaf as a base, or use a faux leaf if there is a concern. This can also be done with smaller leaves from Maple trees, or even Oak trees.
- 2** Lay the leaf flat, and spread a thin layer of Americana Decor® Texture™ in Rose Gold on the leaf with a palette knife.
- 3** Let dry over several hours, then, when dry to the touch, add a second thin layer, being careful to cover the entire surface.
- 4** Once the entire leaf is covered, carefully move the leaf to a clean surface, and let dry, leaving the texture paint side up. Depending on the thickness of the applied medium, this may take several days!
- 5** Once the medium is completely dry, peel Americana Decor® Texture™ off the leaf. If a real leaf is used, it may tear, and that's ok, it can be discarded when finished.
- 6** Once the leaf and the Texture paint are separated, it's ready to frame! If the underside of the medium still seems not 100% dry. Let impression sit out overnight to make sure it's completely dry before framing.
- 7** Place the leaf impression in the floating frame between two pieces of glass, and display!

DIY Personalized Wine Glasses

Materials

- 439TG Purple Transparent Glitter Vinyl
- 478TG Lime Transparent Glitter Vinyl
- 421 White Etch Vinyl

*All materials listed are Styletech Craft brand products

Instructions

- 1 Wipe the surface of the wine glass with an alcohol wipe to remove any oils.
- 2 Cut a piece of transfer paper a little larger than the flower shape. Remove yellow backing from transfer paper and lay on top of the flowers. Gently rub over the transfer paper using the blue vinyl scraper tool to make sure the image has transferred.
- 3 Lay transfer paper onto glass. Because the surface is curved, start from the center of the image and rub one side at a time using vinyl scraper tool. The tool allows you to smooth the image and get rid of air bubbles. Remove transfer tape.
- 4 Center leaves over floral design and repeat process.
- 5 Add the etched word wine onto the reverse side of the wine glass.
- 6 Allow the vinyl to cure on the glass for 4 days before using. (Hand wash only).
