

Appliqué with Charlotte's Fusible Web

From SUPERIOR THREADS

1. Have your background fabric and appliqué fabric cut and ready.

2. Wind a bobbin with Charlotte's Fusible Web thread.

3. With long stitches, sew around the edge of the appliqué shape.

4. Place the appliqué piece where desired and iron.

5. Pull the top thread off (will not be sewn down since the Charlotte's Fusible Web melts into an adhesive).

6. Repeat for all appliqué pieces.
